Training & Teaching

EURL TESTIAL provides qualifying and certifying training as well as upgrades and retraining, thus meeting the needs of individuals, professionals and companies in the following specialties

- **Non Destructive Testing:** Initiation, improvement and qualification of NDT operators (VT, UT, RT, PT, MT, ET, TOFD, PAUT), and mastery of techniques.
- **The practice of welding:** initiation, improvement and qualification of welders and operators according to the SMAW, GTAW, GMAW and FCAW processes as well as welding inspectors (WI – Welding Inspectors).
- **Piping and boiler making:** at the request of the customer. Welding metallurgy and defectology: at the request of the customer.
- **Card-specific training:** at the customer's request.
- Radiation protection, Safety (HSE), Inspection of pressure vessels, ...

Intervention & Expertise

EURL TESTIAL intervenes on site to

- **Metal construction:** framework, piping, and Welding of concentrated works and pipes.
- **Non Destructive Testing (NDT):** control by X-Ray, ultrasound, magnetic particle testing, penetrant testing, endoscopy, etc...
- **Inspections of regulated equipment:** Inspection APV, APG, APL, APE, PMI ...
- The provision of qualified personnel in welding and NDT.
- Establishment of specification and approval of welding procedures (WPS/PQR) as well as approval of welders.
- Any expertise or counter-expertise (arbitration, third party, etc.) at the request of the client.

EURL TESTIAL puts its knowledge, its know-how, and its know-how to be, to the benefit of companies for any mission of advice, assistance and support, as well as the provision of skills in the aforementioned areas.

Certificat d'Accréditation

N° : 2-056 Rév 00

ALGERAC, reconnu par le décret n° 05-466 du 06 décembre 2005, est signataire de l'accord multilatéral de l'EA pour l'accréditation, pour les activités objet du présent certificat, atteste que :

EURL TESTIAL

Adresse : Rue Saada Said, Lot 24, Gdyl, Wilaya d'Oran

Est accrédité selon la norme ISO/CEI 17020 : 2012 et les règles d'application d'ALGERAC pour les activités d'inspections suivantes :

- ✓ Inspection dans les ouvrages et installations industrielles ;
- ✓ Soudage - Qualification des soudeurs et mode opératoire de soudage (QS/QMOS) ;
- ✓ Produits et composants industriels (Contrôle Non Destructif).

Les activités et les sites concernés, couverts par l'accréditation sont décrits dans l'annexe technique qui fait partie intégrante du présent certificat.

Durant la validité du présent certificat, l'organisme s'engage à respecter les exigences de l'accréditation.

Date de prise d'effet : 21/12/2022
Date de fin de validité : 20/12/2025

Le Directeur Général

 Noureddine BOUDISSA

Main material resources

- Gamma radioactive sources (iridium 192) with accessories.
- X-ray stations (panoramic and directional).
- Miscellaneous equipment for X-ray shooting and interpretation of radiograms – Negatoscopes, Densitometers...
- Miscellaneous X-ray equipment: Survey meters, films (at least two types), post time calculation rules, collimators, etc.
- Conventional ultrasonic inspection devices with different types of probe.
- Vacuum box with accessories – compressors.
- Complete penetrant testing equipment (colored and fluorescent) + consumables.
- MT equipment: magnetic yokes, permanent magnet, portable heavy duty magnetic inspection unit provides high output AC or HWDC fields, fluxmeter/photometer, UV lamp, and consumables.
- Visual control equipment and accessories – Endoscopes.
- Equipment for coating control – Coating machine, Brooms, paint control device...
- Electric and autonomous welding stations SMAW, GTAW, GMAW, FCAW and accessories.
- Miscellaneous equipment needed for welding pipes and others.
- Piping and structural welding workshop.
- Complete educational material for the different training courses...

Main human resources

➤ **Welding:**

- Pipe welders certified in:
SMAW, GTAW, GMAW, FCAW
- Approved frame welders
- Works supervisors and welding team leaders
- Works supervisors and piping team leaders
- Welding engineers

➤ **Non Destructive Testing:**

- Welding controllers / inspectors
 - Visual level 1 & 2
 - Radiography level 1 & 2
 - Ultrasound MUT level 1 & 2
 - Magnetic testing level 1 & 2
 - Penetrant testing level 1 & 2
 - Ultrasound PAUT level 2
 - Ultrasound TOFD level 2
- Welding Inspectors

➤ **Expertise :**

- NDT Level III Expert
- Expert and specialist in welding

Our SAFETY policy

EURL TESTIAL undertakes to ensure the health and safety of all their employees, customers and other persons who may be affected by the company's activities.

As part of this commitment, we adopt procedures and programs to ensure the safety of working conditions and products in accordance with applicable laws and regulations.

The risks are systematically assessed and we take appropriate protective measures.

EURL TESTIAL is required to develop and apply health and safety programs in accordance with this policy. Operational managers are required to put in place systems and procedures to ensure the protection of employees and to control day-to-day operations.

In addition, all company employees are responsible for their own safety and that of others through the strict application of the instructions.

In terms of Radiation protection **EURL TESTIAL** is intransigent on the strict application of procedures in accordance with National and International Standards.
